The words less risk and growth don't appear together very often. Then again, it's not often that you'll come across a fund with the potential to provide both.

But the new generation Diversified Strategy Fund aims to do just that for your pension scheme. With the freedom to invest across a broad mix of assets, including alternatives, our investment process is designed to deliver real returns without the volatility associated with conventional portfolios. Better still, it's from Morley, a name with a long heritage and proven expertise in providing optimised multi asset solutions for institutional clients.

Head of FX Trading, Americas,
HSBC Bank USA, N.A.

For more consistent results in the face of global exchange rate fluctuations, Daniel O'Sullivan relies on CME, the world's largest regulated marketplace for foreign exchange trading. CME offers futures and options contracts on all major currencies — including the euro, British pound, Swiss franc and Japanese yen. They provide a cost-effective and credit-efficient way for leading corporate and investment banks like HSBC to help customers manage foreign exchange exposure.

By improving the way markets work, CME is a vital force in the global economy, offering futures and options products on interest rates, equity indexes, foreign exchange, commodities and alternative investments. For more about how CME can change your world, visit www.cme.com/info.

One of the greatest assets in our portfolio.

At Insight we're all ears. It's what sets us apart.

Through listening to our clients we gain an insight and act on it. It's our philosophy to approach things from a different angle. Understanding the end investment result so that we know how to identify the starting point. We don't buck trends, we start them, through developing investment capabilities designed to meet your needs not ours. So, is listening to your clients revolutionary? To us, it's just the way we do things. This is Insight.

The key to a good Commercial Mortgage
is understanding that one size doesn't fit all.

Business owners looking for premises to occupy may have very different needs from those wanting to buy property to rent out. Whilst selecting the right property is crucial, choosing the right loan can also make a big difference to the return you make from your investment.

At HSBC, we understand that every business is different. That's why we tailor our financial solutions to cater for almost any business need. The critical matter of finding the right solution for your business is just the kind of challenge that our Commercial Managers thrive on.

Some banks treat start-ups
like they all have the same worries.
Now, that is a worry.

At HSBC we recognise that different start-ups face different challenges and consequently have very different needs.

We've been with Powerchex, a screening firm for the finance industry, since day one. And, when their ambitions started stretching their resources, we were able to act quickly to provide the funding they needed to keep growing. This helped them expand their applicant screening service without having to think about screening investors.

To help get you started, with HSBC your first 18 months' business banking is free,* including free internet banking, for which we won the 2006 ifs/Capgemini award.

You'll also have access to free telephone banking as well as a Business Banking Specialist for practical support and advice. And, because it's all free, it won't affect your bottom line. Which, of course, is one less thing for you to worry about.

FINANCIAL TIMES THURSDAY NOVEMBER 22, 2007

Why Merrill Lynch is Still Bullish on Merrill Lynch.

These have been a challenging few months, not just for Merrill Lynch but for many companies around the financial industry. But our strength as a company suggests any setbacks will be overcome.

Our financial position and liquidity remain strong. And everywhere we look, the people of Merrill Lynch are bringing extraordinary value to our clients, and producing the strong growth that goes along with it. Even with adverse mortgage-related results in the third quarter, the company's net earnings totaled \$2 billion and net revenues totaled \$20 billion for the first nine months of the year. Our global private client, investment banking and equity markets businesses all had record revenues for the same period. And we continue to drive some of the most significant, innovative and leading financial transactions in the industry.

Time and again in our 93-year history, we have survived tumultuous times and tough markets and emerged the stronger for it. It's worth remembering that less than a decade ago, the economy and financial industry suffered an unprecedented series of shocks — the Asian currency crisis of 1997/1998, followed by the bursting of the dot-com bubble in 2000, followed by 9/11. Then, as now, the people of Merrill Lynch rallied together, and in the years following 2001, the company produced five straight years of exceptional growth.

What the people of Merrill Lynch do in challenging times is precisely what we do in less challenging times: focus on identifying opportunities to create wealth and make a meaningful difference in the lives of our clients. We try to remember that investing is not a sprint, but a marathon, and that over the long term, patience is invariably rewarded. The symbol on this page is not just a corporate logo. It represents the philosophy of Merrill Lynch, an embodiment of the pride, strength, integrity and optimism that have driven this company for nearly a century, and will continue to do so for a long time to come.

It started as a way to help bring value to our clients.
It ended up challenging the conventions of our industry,
redefining the role of an investment bank,
and accomplishing what others called impossible.

So, who do you want on your side?

Merrill Lynch worked as sole adviser to three leading clients in the successful takeover of Dutch bank ABN AMRO. With a thorough understanding of our clients' businesses, we negotiated how each partner in the transaction could safeguard their existing businesses. The insight we brought and creative strategy we developed with our clients to close the record €71.2 billion deal also led to the largest rights issue in €13.4 billion, and the largest hybrid capital financing offering of €4.2 billion. To support the transaction for our clients, we provided underwriting commitments totaling €55 billion. Our dedication to completing a superior transaction demonstrated a new level of partnership in the investment banking industry. WHY KING KONG WOULD NEVER MAKE A GOOD BANKER.

A bank can grow in two ways—upwards or outwards.
Towards people or away from them. Skyscrapers are fine,
but we believe we can serve you best by having 10,800 branches
in 40 countries. And they are not on the top floor, but right
next to you.
