

### Disable Telemetry and Data Collection:

1. Open Firefox and type about:config in the Addressbar and press Enter. It'll show you a Warning Message, click on Accept the Risk and Continue Button
2. In the Search Bar, type each of the following Preferences and then set them to the Value provided to the right:

Preference	Value to change
browser.newtabpage.activity-stream.feeds.telemetry	false
browser.newtabpage.activity-stream.telemetry	false
